

Introducing Steck's new Servo Pneumatic Depositor - the SPD138. A 'Best of Both Worlds' machine offering full Servo control with the power, durability, and ease of maintenance of pneumatics.

Featuring an IP69 rated 2k, touch screen menu control system for ease of use.

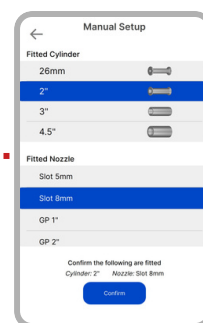

WiFi & Bluetooth connectivity enables remote recipe control, performance analysis, and local data logging.

But still with Steck's 'casseted' engine design to help keep maintenance costs low.

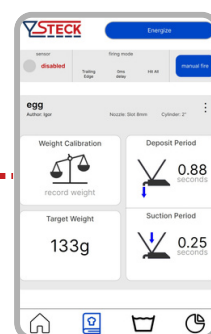

And it's our most advanced & efficient depositor yet, giving you performance at your fingertips.
